First name: Sierra

Last name: Stoneberg Holt

Organization:

Title:

Comments: Does this plan truly include the decommissioning and obliteration of historic Road 478? We often hear that the reason Western states should not have property-owning residents, is because they can sometimes prevent access to outdoor recreation opportunities like fishing, hunting, and sight-seeing. If the Forest Service also prevents access to outdoor recreation opportunities, why are they a preferable Western property owner to human beings?
