Title:

Comments: 4 to 5 times per week user of Falls Creek or Log Chutes.

Concerned that there was no public notice posted at the trailheads to announce this scoping and that the comment period closed before publication in the Herald.

Yes, parking at the Colorado Trail Trailhead needs to be addressed.

I would need to be convinced that ADA fishing is appropriate in the Junction Creek Riparian area and that it would be possible to create an ADA path without destroying what people come to see in that area.

Concerned that approval of an emergency egress road between CR 203 & Falls Creek/Hidden Valley will lead to inappropriate use of said road.
