Comments: To Whom it may Concern and CARES ABOUT WILDLIFE AND THEIR HABITAT!

"...staggering decline in wildlife populations is, in part, attributable to mismanagement of public wildlands by agencies like the Forest Service." (WILDLIFE POPULATIONS HAVE ALREADY BEEN REDUCED BY AN AVERAGE OF 80%!!!)

"As Nez Perce environmental scientist James Holt, who serves as BFC's Executive Director, points out: "According to the Forest Service - who we must remember are paid by our tax dollars, and not by the timber industry" (HA, HA, HA, JUST LIKE THE BLM AND THE CATTLEMEN!!)

" - this intensive logging, burning and road-building of 32 square miles of habitat in the Yellowstone Ecosystem, some of the best wildlife habitat in the world, is insignificant and will not give rise to any adverse environmental impacts for the public to be concerned about!" (THIS IS SIGNIFICANT AND YOU FREAKING KNOW IT, IT WILL IMPACT ALL WILDLIFE THERE IN A VARIETY OF WAYS!!!)

Mary Rojeski
