Title:

Comments: As an Oregonian who treasures Yellowstone National Park as a vital contributor to the health of our planet, I implore you to leave the lungs of our Earth in tact and not log or burn the forest in Yellowstone. The size, degree, and duration of the Custer Gallatin's logging and road building projects impairs the resiliency for wildlife species and the ecosystem in Hebgen Basin.

I support the Buffalo Field Campaign in urging the Custer Gallatin to withdraw the SPLAT.
