Comments: I hope this project moves forward as I have spent 40 years hunting the Alleghany Highlands and have seen firsthand the decline in Grouse numbers and the aging of the forest due to the lack of modern timber management activity. We need much more early successional habitat in our region if we hope to keep game species plentiful thus enticing more license sales to pursue our choice of quarry. I appreciate the opportunity to voice my opinion and I look forward to seeing more habitat work in our area.

Thank You,

Allen
