First name: Wesley

Last name: Saunders

Organization:

Title:

Comments: This is an admiral goal and should be pursued with objectives to build a trail that is accessible and available to all.

I encourage the leadership to consider the future use of this platform as we see more and more use of our outdoor sites; and s&r teams stretched thin. We should build a trail that will stand the test of time.

I encourage the leaders to consider history and communities present and past and find ways to honor those communities.
