First name: David
Last name: Meyers
Organization: Montana Kayak Academy
Title: Executive director
Comments: Our organization strongly disagree with the Stibnite gold mining project. The east fork of the south fork of the Salmon River is a fragile ecosystem and open pit gold mining has not proven they will care for this drainage. This drainage is the real gold and we hope that this river from its source can flow without the devastation and pollution of a gold mine. One private sector companies search for fortune should not destroy this beautiful section of free flowing river that so many of us enjoy.
