First name: Natalie

Last name: Narburgh

Organization: Pisgah Area Sorba

Title: Executive Director

Comments: Pisgah Area SORBA would like to request recreation groups be involved early in the design and implementation of this project. This will help to minimize and mitigate any potential damage to existing trails, which our nonprofit works hard to maintain. Involving nonprofit recreation groups such as Pisgah Area SORBA will also ensure utilization of any opportunities to improve trails and trail systems. As advocates for a type of outdoor recreation, we can work to effectively communicate to our members and community.

We encourage outreach to recreation volunteer groups (SORBA, BCH, CMC, etc) for inclusion of their data sets to see geographically where those areas of overlap might be. GIS data sets can be overlayed with project targets & could benefit vs obliterate future trail proposals.
