First name: Mac

Last name: Turney

Organization:

Title:

Comments: I fully support this project. It will clean up environmental issues from prior work. It will be environmentally friendly. It will supply critical minerals needed onshore, in the USA, to stop ordering these minerals from our advisories. It will create jobs for the area and Americans. It will support the local communities, the State and the USA. We need this project to go forward as soon as possible. Please expedite!
