Comments: Thank you for working with the public to complete the East Crazy Inspiration Divide Land Exchange #63115.
This area of the crazies is close to my home on Livingston Peak and it has become our preferred recreational destination. We have hiked and camped there. In the past the fences and gates have been an unyeildy manner to access some parts of the public land. And a couple of times, we had to turn back. This has been a long time coming and we are very happy.
