Comments: to whom this concerns,

As a business owner in McCall for close to 40 years, I know well how hard locals work here all summer, with little time to spare as we " make hay while the sun shines." Fall has its own stresses of preparing for winter, and this year the elections took our time and focus. Now we are on to family concerns and holiday demands. We will have little time to give the Perpetua SDEIS the attention and scrutiny it needs. My family and I have kayaked, camped, hiked, biked and melted in the sun in the South Fork drainage for over 35 years. We need to protect these lands and waters. This will require time and thought to review the changes in the proposal and formulate informed criticisms.

Please extend the review period to 120 days.

Thank you.
