Last name: Hardaway

Organization:

Title:

Comments: Yellowstone Club going after public land in trade to gain land they can develop and sell. They have money (oh boy do they have the money), time and resources to do it. They make it look pretty to appease onlookers because they can.

As a native Montanan, parent and teacher here are my thoughts.

STOP Giving the club access and ability to manage and gain our public land for their own gain. Disgusting. This entity doesn't stand for the MT I want for myself, for my kids or my students. If there is a way to stop the greedy hands of the Yellowstone club grabbing valuable public land, please stop them.

All we can do as the public is post a public comment. We are counting on you to stop this organization from furthering their reach into our community and valley.
