Title:

Comments: I have lived at the address 40 plus years,I have lived through many changes in our mountains.had a major slide in the end of our hollow 1-1/2 years it destroyed a elderly ladies home who had live most of her life in the same place. Destroyed the way in and out,neighbors came together and moved the sludge in one space.when it rains the mountains let loose the water from the streams,the waters come quickly and fast,moves the culverts into the roadway every time .continually have to repair the ditches.floods our neighborhoods,churches every time the heavy rain comes.please stop the damage to the mountains,the community we live in.thank you I am a 70 year old female.live alone ,no way in or out when the roads flood, till water goes down.
