Comments: Hello, I am writing in support of the Lemon Gulch project, alternative 2. The addition of this trail network will continue to build Central Oregon's reputation as a premier destination for mountain biking in the American west. Central Oregon's growing MTB trail network also serves as a draw for those choosing to move here, which will continue to build and strengthen the region's economy. Finally, in general, the mountain biking community consists of kind, thoughtful, and environmentally-mindful individuals-There is very little downside to having more of these values present in our community.
