Comments: The Lemon Gulch already sees a significant amount of public recreation. Under this proposal a multiuse trail system would be constructed in the most environmentally friendly manner possible to ensure that all users, hikers, equestrians, and mountain bikers could take advantage of the wide array of recreational opportunities offered by Lemon Gulch while minimizing potential conflicts between various user groups to the greatest extent possible. The mountain biking community in Central Oregon has always practiced responsible environmental stewardship and this tradition would be continued under the Lemon Gulch proposal. As such I respectfully request that the Forest Service grant the approvals and permits necessary for the project to move forward. Thank you for consideration of these comments.
