Comments: Dear Ochoco National Forest,

I'd like to add my support for the Lemon Gulch trails. I'd strongly prefer Alternative 2 with the full 52 miles of trail. I'm an avid mountain biker and trail runner. I visit the Lookout/Round Mountain trails many time a year to ride/run as well as the Wildcat wilderness to run. When I visit I stop in Prineville to grab food and gas.

Mountain biking is a great growing sport and bringing money to local communities. Bend should not be the only town benefiting from the growth of the sport. Prineville has amazing outdoor potential and a trail system like this being built would bring in new new people and economic opportunities to the area.

I'd fully support adding as many single track trails as possible to the area and ask for option 2. However I understand that Option 2 may not be possible. in that case, I'd ask for Option 6 to be considered as a second choice.

Thank you for your consideration.

Zach Violet
