Comments: We enjoy coming to Eastern Oregon for outdoor recreation, including mountain biking. We have been coming to Eastern Oregon for over 40 years and still enjoy mountain biking there as well as skiing. We hope that the trails at Lemon Gulch are built. We live in Washington and we are happy to see more users on our local trails including families and young people. Encouraging outdoor recreation makes for a healthier population and is a wonderful and inexpensive experience for families. The local Prineville community will enjoy these trails as well as visitors like us.
