Title:

Comments: USFS,

My teenage boys and I are long-time mountain bikers. We ride together, and with friends, as a adventurous, healthy activity. We are fully supportive and super excited for the Lemon Gulch full build of mountain bike trails near Prineville. These trails will draw us to the area more than we already go now. We spend a lot of time in the Bend area riding trails currently, and Prineville could reap similar economic and health benefits with a robust trail network like Lemon Gulch.

This year my boys raced in a youth mountain biking league (NICA), and Prineville hosted a race weekend for the first time. As the 400+ middle-school and high-school-aged riders got some exposure to the area, they naturally asked, what else is here that we can ride? Lemon Gulch is the answer to that question.

Please record my full support, along with Liam (18) and Ezra (15) for the full Lemon Gulch project. We are stoked to see this happen!

Dan Brown
