Comments: Projects like this are needed to provide new access to public lands. A well designed and managed trail system is a great way to open this area up to more responsible use of those resources. As proposed having designated trails for bike, hike and equestrian keep conflicts down and everyone has a much better time. I also support this project as I have yet to hear any arguments the there are too many trails for people to enjoy in the Prineville area. Please support is project as it will benefit the very large community of outdoor enthusiasts.
