Re: Crazy Mountain Exchange

I understand that exchanges are often scrutinized for hidden advantages. But however you look at this one, it is a win-win for the public which gains significantly more access as a result. In return, the YC gets ski terrain they can create access to with lifts, but would be little used otherwise by the public. As a full-time resident of Big Sky for 30 years, outdoor enthusiast, and lover of the Crazies, I support this exchange.
