Title:
Comments: I am against the Jellico / Rock Creek logging project. There is no good reason to log these areas . Vegetation management is not necessary. These places were almost and some was destroyed by mining. Leave the forest as it is.
Logging has destroyed my area I live . Blue John Road Burnside KY it also destroyed the road and my tires
The environmental mess they make they leave it . Oil transmission fluid and other especially the Herbicide they spray. Kills Animals and PEOPLE.
This is a bad situation for everyone and everything.Stop Logging The Daniel Boone Forest. Making the loggers rich off of Our Forest
