Comments: I am in support of the full build at Lemon Gulch, Alternative 2. This option offers a full range of XC biking and downhill, black diamond trails. There are no other areas in Central Oregon that offer this type of steep, rocky terrain. There is a clear lack of black trails in Central Oregon, so it would be best to support the project that allows for the most black trail miles. This interconnected system also allows for everyone to come out to the same area for riding, regardless of skill level. In order to make everyone feel accounted for, we need a full range of trails. If necessary, Alternative 6 would be the best second option. However, this alternative makes the shuttle system difficult for beginner riders because you'd have to climb ~250ft to get back to the shuttle trail.
