Title:

Comments: I am writing in support of the Lemon Gulch trail system proposal. I have family in Principle and visit a few times a year from a small similar sized town in Washington State. I have personally seen the benefits of how a trail system can benefit the surrounding area. My community is the beneficiary to a similar trail system build out. On any evening you will see vehicles with MTB on racks parked out in front of our restaurants and lone brewery.

The construction of a legitimate multi use trail network will help mitigate conflict and provide an economic boom for the town of Prineville. The Alternative 2 appears to have a great infrastructure to have a long term successful project.
