Last name: Rech

Organization:

Title:

Comments: I have lived in Sweet Grass County for 12 years now. I was raised in Montana and have witnessed continual conflict between land owners and public land overseers. After discussing this with multiple land owners involved and special interest groups, I am impressed with the consensus that this proposal is a good one. I see people who are impacted personally and to see the benefit for improved access to the Crazy Mountains, I am overwhelmingly for this proposal. I live and work in this community and believe it to be a win for both the land owners and recreationalists like.
