First name: Taylor

Last name: Doe

Organization:

Title:

Comments: Its hard to believe that you are so ignorant as to forestry and ecology given what your organization represents. So I find it far more likely you are just drastically misrepresenting what a 'healthy forest' looks like at the behest of your corporate donors. Shameful.

There is no world in which clear cutting old growth forest is a healthy action. Its all about the money, as usual with the federal government.
