Comments: I fully support the building of all 52 miles of trails in Lemon Gulch.

This tight knit area of trails offers an excellent recreational opportunity while minimizing the impact on the environment.

This trail system will alleviate pressure & potential user conflicts on other trails in the area.

There will be an economic benefit to the local business such as restaurants, hotels & grocery stores.

This is just one proposal from Ochoco trails, there are others that include equestrian & hiking trails.

I believe Ochoco trails has done a great job of considering all interests and user groups.
