Last name: Meadors

Organization:

Title:

Comments: I was born and raised on Jellico Creek in Whitley County. I currently own property and reside on Ryan's Creek where I spent my adolescent years with my cousins and grandparents. My property adjoins the proposed project property. . Many people today are screaming about climate change. The proposed clear cutting and spraying in my opinion can certainly change the climate in our community. Clear cutting of this magnitude will cause erosion and devastation to local habitats. The proposed spraying with herbicide sprays can cause sickness and even death for animals as well as humans. I am someone who was exposed to the Agent Orange used in Viet Nam and currently suffer from several medical problems.
