Comments: I am totally against clear cutting. I live downstream from these mountains, and I already get flooded during heavy rains. But, my land has not always flooded. My dad grew up not far from where I live. In 2005 my property and the road flooded so badly the fire dept. came to monitor the roads. Dad, who was 70 at that time, said he had never seen that happen. And it has happened several times since then. This is a direct result of cutting timber and coal mining that has occurred in this area in the last 20 years. If this land is clear cut I am afraid of the disastrous effect it will have on ALL of us in this area. Please. No Clear Cut.
