Comments: I am concerned that the draft environmental assessment (EA) for the Porter, Pine Canyon, and South Fork La Brea Allotments Project is insufficient.

The project was first announced 13 years ago, yet the draft EA is incomplete.

I ask that your agency analyze additional alternatives to the proposed action.

One additional alternative should have a lower number of livestock allowed in each of the three allotments, especially where they overlap the San Rafael Wilderness and designated critical habitat for the California red-legged frog and steelhead.

Your agency should also commit to releasing all of the environmental analysis documents being relied upon before the beginning of the public comment period for a new draft EA. I am unable to fully understand the basis for many of the findings in the current draft EA due to so many referenced documents being withheld.
