Comments: I'm an avid mountain biker in Bend and would love to see more local trail systems in nearby towns like Prineville. I'm absolutely amazed by how much effort and care go into the trail maintenance and love in the Bend area. A robust mountain bike trail system is a good thing: it brings business to the local town; it brings awareness and caretaking to mother nature; it helps people stay emotionally and physically healthier. Lemon Gulch trails would be used, loved, and cared for.
