Comments: Hello forest service, friends!

I would like to lend a few words of support for the lemon Gulch trail system. I live in Hood River County and we have had the benefit of having the support of our local forest service team to build and maintain some very well used trails in our community. The benefits of having a trail system are numerous not only for the residence of our county but also for the income that is generated by visitors who want to come and explore the area around your proposed trail system. these visitors come with intention to participate in the local economy and generate revenue for local businesses that will benefit residents from near and far. I encourage you to embrace this project as a foundation for your economy, and for the preservation of a wonderful natural resource. I personally look forward to visiting your trail system in the near future, and would welcome you to come and explore ours. Thank you very much for your consideration.
