Comments: To whom it may concern,

I am writing to express my support and praise for the proposed land swap between the Crazy Mountains and the Madison Mountain Range.

I have been fortunate enough to visit both of these beautiful ranges, and can attest to their breathtaking natural beauty. The Crazy Mountains are a treasure trove of stunning landscapes, from alpine meadows to towering peaks, while the Madison Range is home to some of the most pristine wilderness in the country.

I believe that this land swap will be a win-win situation for both ranges, as it will allow each to be better managed and protected. The Crazy Mountains will benefit from the additional acreage, which will allow for better conservation and preservation efforts, while the Madison Range will gain access to new recreation and tourism opportunities.

Overall, I believe that this land swap is a fantastic idea, and I wholeheartedly support it. I hope that you will consider my words of support and give this proposal the serious consideration it deserves.

Sincerely,

Jonathan Lizotte
