Title:

Comments: I am writing in support of the Lemon Gulch Trails Project. Specifically, I am in support of Alternative 2 which allows for the most diverse and adaptive system of trails. More generally, the trails proposed for mountain bike use are the result of an extensive and collaborative planning effort where the Lemon Gulch area was seen as the most preferred for mountain biking. I feel it is important to provide trails for a variety of users on our public land, and there is a demonstrated and growing interest in mountain biking. By designating uses on certain trails, we can avoid user conflicts with hikers, OHVs, and equestrians which are continuing to increase.
