Comments: I strongly OPPOSE the East Crazy Inspiration Divide Land Exchange. This reduces the existing public access points to the Crazies and further limits the public lands in Montana. Much of our public lands are getting harder and harder to access in Montana and I don't want to see existing access to OUR public lands being taken away. Removing hunting and angling access via the Sweet Grass Trail is taking away our public land rights to the Crazies. Please say NO to the land swap and keep our access available to public lands!
