Last name: Kiselica

Organization:

Title:

Comments: How will Perpetua combat irreversible habitat loss for vegetation, water, fish and mammals? How will they restrict heavy metals from entering the ground water and streams? How will they not affect the Nez Perce indigenous tribe and the land they call home and use for traditional hunting, foraging and gathering under Treaty? The impacts will last over 100 years and recreational users also call this place home. How will they protect the ESA listed species?
