Title:

Comments: Despite being a mountain biking enthusiast, I absolutely don't support this project.

Can nothing remain sacred around here any more? Can't we just keep a few areas from crawling with people and traffic? I was born and raised here and it's getting old seeing so many beautiful areas raped and trampled, simply for human entertainment. I can't imagine how the Native Americans feel about some people's idea of progress and the impact it has on nature. I'd venture to say anyone that supports this isn't from Central Oregon. I vehemently oppose this project and the impact it will indefinitely have on one of the last few unspoiled areas in Central Oregon..
