First name: Anthony

Last name: Morrison

Organization:

Title:

Comments: This proposed plan is in direct contrast with the interests of the working man and every day Montanan looking to recreate, hunt, or fish in the Crazy Mountains. The crazy mountains are already an access nightmare with nearly half of the range blocked off by wealthy landowners. This proposed plan is just another rich man's land grab attempting to further restrict access and public lands. This plan should be thrown out immediately. The YC and wealthy seasonal residents do not have the right to restrict public land usage.

Sincerely

Public land owner
