Comments: To Whom It May Concern,
I am writing to support the proposed Crazy Mountain / Madison Mountain Range land swap that is currently open for public comment. Trading inaccessible land in the Madison Range in order to gain substantial access in the Crazy Mountains seems like a terrific proposal. While it benefits residents in different counties, I believe that the overall, net benefit to our collective community is what should be considered. We need to preserve and increase access to public spaces in Montana and this project clearly achieves that objective.
Regards,
Tom W
