Comments: I am strongly in favor of the land swap proposed by the coalition and the yellowstone club. i've been hiking, camping, and backcountry/ lift skiing in the big sky region for over 30 years. i believe the proposed swap is beneficial to all parties. while the yellowstone club would be allowed skiing and recreational access to it's new property, that property would also be protected from future develpment. furthermore, due to the remote location within the yellowstone club, the land would likely remain relatively untouched and provide valuable wildlife habitat. The land and land access offered by the yellowstone club in this exchange are extensive and important, more than offsetting the loss of acrage to the yellowstone club. this proposed exchange is a win/win for all involved.
