Comments: The East Crazy Inspiration Divide Land Exchange is not good for nature and not good for regular Montanans.

This exchange will result in habitat loss for wildlife. And lost wetlands. And lost access for the public. Overall, this exchange diminishes the richness of nature and the opportunity for enjoyment of nature by average, ordinary Montanans.

Please don't trade the public's rightful access to nature in exchange for more space for a private club.

Please reject the terms of the East Crazy Inspiration Divide Land Exchange. You have to do better. The time to do better is now, and the place to do it is here.
