Comments: Losing land for land is one thing but losing this much access, this habitat and theses kind of mineral rights is wrong. . You wouldn't make this deal with your family's land, why do the public that way? You are the stewards of this great state, by giving in to this kind of development, you will be contributing to to ruination of this place. Do you love this place or do you not? Give us a fair trade at the least.
