First name: Scott

Last name: Springer

Organization:

Title:

Comments: I'm a born and raised Montanan and very against the sale of this land, Montanans need public land for recreation. The Yellowstone Club is a greedy corporation that is buying off Montana and taking away access from the hard working locals.

They've destroyed Big Sky, we don't need them destroying other parts of our beautiful state with their greed. It would truly be a shame to see the Crazies turn into another project for this careless organization.
