Comments: I, and my family that I represent, adamantly oppose the East Crazy Inspiration Divide Land Exchange #63115 as the proposal is not in the best interest of the public. The proposal heavily favors private interests and leaves the greater public short handed.

This proposal would result in the loss of public hunting and fishing access to miles of fishable streams. It would also sacrifice 40 acres of wetlands in addition to other high quality, low-land wildlife habitat for higher, steeper, less productive habitat. The public stands to lose more water rights than it gains and gives 100% of mineral rights while only receiving 18% in return. The public would also give up two important and historic trails and four administrative roads in return for one trail. Lastly there is no disclosure of land or timber value lost by the public indicating that this proposal is heavily weighted in favor of the private parties who stand to benefit.

This is proposal if executed as is would be an act of treason against the American Public.
