Comments: I am contacting you as a Montana resident who OPPOSES the East Crazy Mountains land swap. I oppose it primarily for these reasons:

- 1) The PEA is faulty because it does not disclose the monetary value of land exchanged.
- 2) The PEA is faulty because it relies on public benefits which it does not provide, and therefore cannot consider as a part of the Project proposal because those benefits are not guaranteed.
- 3) The Project sets a dangerous precedent by reinforcing and rewarding the negative and anti-public behavior of the landowners involved.
- 4) The PEA fails to analyze that the Project will result in habitat loss and degradation of the riparian zone along Sweet Grass Creek.
- 5) The public forever loses rightful claim up Sweet Grass Creek Road and Trail #122
