Comments: Good evening, I am writing this letter in opposition to the east crazy mountains land swap.
The poeple of montana are going to lose access to quality hunting and fishing, as this is acknowledged in the USFS's PEA. The public also loses 40 acres of wetlands, gives up hiking trails and gives away mineral and timber rights.
Again this is a horrible swap for the citizens of montana and the citizens of the USA. Please do not make this land swap.
Sincerly
Mike Darne
