First name: Scott

Last name: Falagan

Organization:

Title:

Comments: As a hunter this appears to be a excellent solution. I honestly cannot even see why anyone would oppose this proposal. I would much rather hunt one large contiguous piece than one section at a time. In life we have to give to get, it's called compromise. Rarely is it perfect but you just have to weigh out what is best for all. And this appears to be an excellent compromise allowing hunters hassle free access and respecting private land owners time and property.
