Comments: - I would love to see more downhill trails here in central Oregon. It will not only help preserve the land being non-motorized, but also help draw folks into Prineville bringing more business to the town while getting more people outdoors and falling in love with nature.

- Alternative 2 is definitely the most exciting one from my point of view as it offers the most amount of biking trails which would keep me around for days vs an afternoon. Otherwise alternative 6 still looks like a great time if this is desired to be kept a bit smaller.
