Title:

Comments: MTB riding is great exercise and a great way to enjoy the outdoors. Lemon Gulch is thoughtfully planned with the environment and current uses fully considered. Times are changing and new uses for land need to be accommodated so more people can enjoy them.

I would think this would be a welcome addition to the Prineville area so they could recreate close to home. It's also good for the environment because of decreased use of automobiles.

Sincerely,

Dr. Scott D. Shaw
