Comments: My wife & I write in support of the Lemon Gulch trails project, Ochoco N. Forest. With increasing human population in the area and across the West - plus the increased stress on all us humans - outdoor exercise is of supreme importance. Most of us don't bushwack but need marked, established trails upon which to walk, birdwatch, photograph and backpack hike. Therefore we 100% ask Forest Service to 'go' on Lemon Gulch. We advocate for the whole deal: Alternative 2. But information from others tells us that Alternative 6 is an acceptable compromise. So we'll support that as a second choice. Please, please support long term, health-improving outdoor exercise/recreation on lands you manage. Please support Alt. 2 or, if necessary, Alt. 6. thanks.
