Comments: Please move forward with the Alternative 2 plan for Lemon Gulch and build the slated 51.6 miles of mountain bike trails. National forest is public land and should be open to all user groups. Public lands shouldn't be closed off to protect the special interest of a few.

A comprehensive study has already been done that shows the Alternative 2 plan has minimal impact within the Lemon Gulch area. It only makes sense to move forward and bring additional recreational opportunities within public lands to all user groups.

Thank you.
